# XTOOL PROFESSIONAL DIAGNOSTICS

FROM A TRULY GLOBAL BRAND  
CURRENTLY SOLD IN 32 COUNTRIES

**AND NOW AVAILABLE  
FROM SERENCO**

## ALL PRODUCTS ARE FROM XTOOL'S PRO RANGE

They are designed for professional workshop use, covering all makes & models with the features needed to service and diagnose today's vehicles

## REGULAR SOFTWARE UPDATES DELIVERED ONLINE

As soon as it's available you'll have it with a simple tap of the 'Update' button!

**AUTOSCAN VIN LOOK UP FEATURE**  
Let the software identify the VIN number & get working on the vehicle quicker

**BUILT-IN PDF REPORTING**  
Allows you to create and print a record of the diagnosis to give to your customer

**EUROPEAN, US, ASIAN, AUSTRALIAN & CHINESE MANUFACTURERS**  
All the most popular makes & models covered on all tools

**SERVICE MENU**  
Your shortcut to the most common diagnostic jobs

**RECHARGEABLE BATTERY**  
All products feature an internal rechargeable battery

**RUGGEDISED HOUSING**  
For maximum durability in the workshop environment

**NO SOFTWARE OR HARDWARE TIME OUT**  
After the 2 years of included updates, further updates can still be purchased on an annual basis

**ANDROID BASED OS**  
Make the tools quick, intuitive and simple to use 

**EACH TOOL COMES WITH A WIRELESS VCI**  
Never be tethered to a vehicle again. VCI model varies depending kit

**SERENCO UK IS THE EXCLUSIVE DISTRIBUTOR  
OF THE XTOOL PROFESSIONAL RANGE**

# Whatever your budget or needs the **XTOOL** family has something for everyone

DIAG PAUSE Report

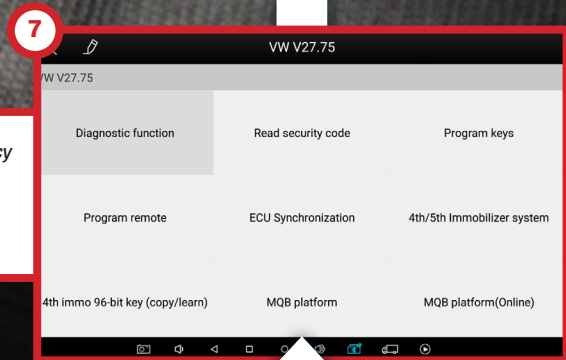

# Autoscan Journey

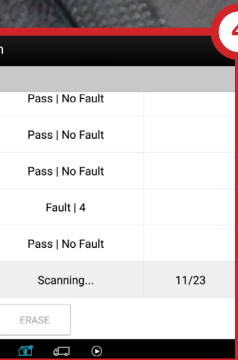

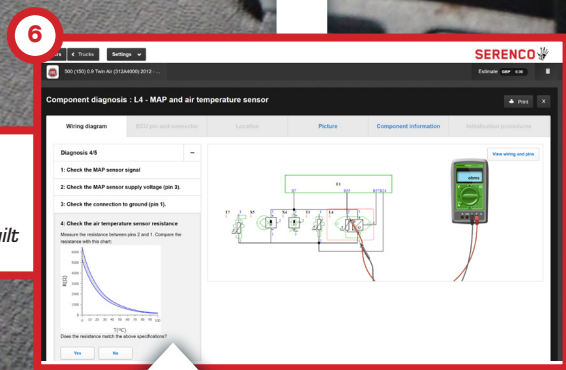

*D diagnostic bills can often get expensive for your customer, build yourself a report and give it to your customer to show how much work goes in to diagnosing today's vehicles*

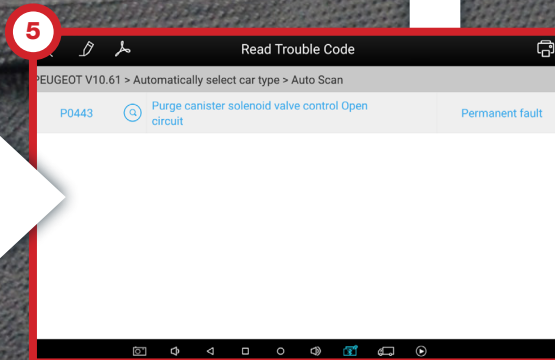

*Read key codes, programme, disable & identify keys, frequency tests, ECU syncing and more! Works on OE, blank and aftermarket keys with 77 manufacturers covered worldwide.*

*Fault codes are only an indicator, for more detailed information such as wiring diagrams and test procedures you can use your HaynesPro license through the built in web browser*

*If you're not sure which system to check for codes, run the Autoscan feature for a report on all available ECUs*

*Need more information? A press of the magnifying glass icon will perform an internet search and find you more information*

### 48Pc Complete Sensor Test Lead Kit

POWERPROBE  
EUROPE LIMITED

Contains a wide range of connection leads for quick & easy diagnosis of faults on most sensors, valves, solenoids, actuators, injectors, starter circuit, ignition coils and more on Asian & European cars, trucks, agricultural vehicles, boats and motorcycles. Comes with a guide for adaptor lead sizes to use with different car makes. Differs from other kits in that it includes 'Y-style' leads for quick connection to meters or scopes, avoiding using time consuming straight through leads to make up test leads.

#### INCLUDES

33 x 'Y' connectors in various sizes | Acicular probe (red) | Acicular probe (black) | Piercing probe | Enhanced variable resistor with dial indicator | Airbag/SRS simulator | Stackable banana cable (2 of each; red & black) | Banana cable (1 of each; red & black) | Crocodile clip (1 of each; red & black) | Banana adaptor (1 of each; female to male & male to male)

### Break Out Box

POWERPROBE  
EUROPE LIMITED

The CAN-Bus circuit tester is suitable for 12 & 24V systems. Once plugged into the car's DLC OBD port it will start to check the pins for any voltage present. If voltage is present the respective LEDs will illuminate.

- Test the vehicle's link connector (OBD port) for any abnormality such as shorting and reverse polarity at the pins before the diagnostic tool (scanner) is connected to the DLC.
- Live display of communicating signals if present, (e.g. communication protocol signals, manufacturer's assigned pins), for quick identification of faults.
- Provides quick access to all 16 pin connections during vehicle repair and diagnosis.
- Monitor the input voltage during chip programming with low voltage alarm.
- Test individual pin voltage presence.

\*Additional tools & accessories pictured are for illustration purposes only & are NOT included

Count, Peak and Track

**ERGONOMIC NON-SLIP, COMFORT GRIP HANDLE**

**SUPPLIED IN BLOW MOULDED CASE**

**WHAT ARE 'TORQUE-TO-YIELD' BOLTS?**

As the modern engine becomes more compact, manufacturers are more frequently using 'Torque-To-Yield' bolts to provide a higher clamping force in a tighter space. 'Torque-To-Yield' bolts require a traditional torque fastening, plus an angle controlled fastening. The angle controlled fastening stretches the 'Torque-To-Yield' bolts in to place to achieve the final required tension. The new Powerhand torque wrenches are capable of accurately fastening 'Torque-To-Yield' bolts without the need for additional tooling.

**BATTERY COMPARTMENT**  
Requires 2 x AA batteries (included)

# AIR-CON SERVICE IN A CAN!

**ON AVERAGE, A CAR'S AIR CONDITIONING SYSTEM WILL LOSE 10% REFRIGERANT A YEAR.**

This means the system will be less efficient and the inside of your car will become warmer and unpleasant to drive.

Regularly maintaining your car's air conditioning system with the easy to use STP® product range, will not only ensure maximum cooling but will also help to improve your vehicle's fuel efficiency allowing for a more comfortable drive all year round.

The STP® air conditioning range allows you to properly maintain and service the air conditioning system without the need for expensive equipment and training.
